

Job description

If you're looking for a **Refrigeration & HVAC Mechanic Position** in Maple Ridge or the Lower Mainland, the Cold Pro team would love to hear from you! We're always on the lookout for seasoned journeymen and mid-level apprentices to add to our growing team.

Requirements:

- Good work ethic and self motivated individual
- Experience maintaining and servicing HVAC and refrigeration systems
- Experience installing and retrofitting HVAC and refrigeration systems
- Experience in boiler service and retrofitting (an asset)
- Clean drivers abstract
- Willing and able to work on call rotation and standby shifts as required

- Establish and maintain positive professional customer relations
- Experience installing ductless-split and VRF systems is an asset

What we offer:

- Company provided tools and training.
- Team building activities
- Union wage scale matched, with year end profit sharing bonus
- Company vehicle with gas card
- Extended benefits after probationary period

- Potential opportunity for refrigeration mechanic apprenticeship
- Potential opportunity for Class A Gas Certification

- Company Cellphone

At Cold Pro you will be among fellow commercial HVAC technicians and industrial refrigeration professionals who appreciate both a hard day's work and grabbing a Friday beer. We also like to celebrate our yearly success, so you can look forward to an annual Cold Pro team trip and holiday party.

Thank you for your interest.
